SALES | CLIENT-FACING PROBLEM SOLVING | BUSINESS ANALYSIS

SUMMARY

Consultative problem solver who diagnoses client needs, negotiates both sides of a deal, and explains complex rules in plain language. Record of high-volume consultative sales, account growth, and above-benchmark margins.

EXPERIENCE

i.c.stars | Technology & Leadership Intern — Sep 2026 – Present

- **Cross-functional consulting:** Contribute to an RFP response for a global medical supply client, including an incident-tracking tool that consolidates recurring failures into assigned problems.

United Bank | Loan Officer — Jul 2021 – Jan 2022

- **Client-facing origination:** Originated and prepared VA IRRRL refinance files for 30+ veteran borrowers, comparing rates and eligibility and translating complex lending rules into clear decisions; 95% of originated deals closed.
- Coordinated with underwriting on every file for clean, audit-ready submissions; department closed when rates rose.

OneDigital (HealthWorks Insurance) | Benefits Advisor — Jun 2020 – Jul 2021

- **Consultative sales:** Sold approximately 1,800 Medicare plans over 13 months, averaging 3–10 sales per day and 10+ daily during Annual Enrollment Period; consistently exceeded sales targets.
- Ran needs analyses and plan comparisons, explained coverage plainly, and followed Medicare compliance.

Echo Global Logistics | Client Representative — Nov 2015 – Nov 2019

- **Two-sided negotiation:** Negotiated client sell rates and carrier buy rates for biofuel shipments, capturing $800–$1,600 gross margin per load against a $100–$300 benchmark, sustained at 3–5 loads per week.
- **Account growth:** Grew a plant distributor from sporadic orders to recurring high-volume business, reaching a run-rate on pace for approximately $1M in annual spend, by aligning shipping with the client's business goals.
- **Risk mitigation:** Designed a damage-reduction plan for a medical device manufacturer that reduced damage claims to near zero and turned the client into a brand promoter.
- **Dispute resolution:** Resolved aging invoices through B2B collections, working with client AP/AR teams to secure payment, settle disputes, and keep carriers paid on time.

Credit Acceptance | Credit Analyst — Feb 2011 – Sep 2013

- **Promoted within 90 days:** Promoted from Collector within the first 90 days; joined a five-analyst team processing 1,200+ credit applications monthly (~240 per analyst).
- Kept a personal error rate below the 0.03% quality threshold, never missed a quality bonus, supported clean internal audits, and communicated adverse decisions to dealership staff.

ADDITIONAL EXPERIENCE

Newlyweds Foods | AR Collector, 2004–2006: Recognized for maintaining the lowest DSO in the collections unit for two consecutive years, as the newest team member.

Enterprise Recovery Systems | Collections Agent, 2000–2004: Negotiated repayment under FDCPA rules; bonuses grew from ~$2,000 monthly to a $4,000–$6,000 average, peak $15,000.

SELECTED PROJECT

Looking Past GDP (2025): Argued GDP alone is an insufficient benchmark, adding U.S./Euro Area inflation, unemployment, savings, and debt (2015–2025). Multi-sheet Excel model with formula-driven policy-rate lagging and documented methodology (FRED, Eurostat, ECB, BIS); six charts; brief with explicit limitations. bcoppage-ic.github.io/Portfolio/brief.html

EDUCATION

B.S.B.A., Management Information Systems, Minor in Economics | SNHU — Expected May 2027

Training: i.c.stars Technology & Leadership Program (2026); SQL and Power BI, IT Expert Systems (in progress)
